**Jouberthe Raïssa**

- 6th year of medical school
- Coordinator ACB
- CEO Algas company
- Alumni CEE Program

# ALGAS Company

## Seaweed production and processing business

### ► Progress

- Study of the distribution of marine algae in the south-west region of Madagascar;
- Identification of edible seaweed of high economic interest;
- Identification of ideal sites for seaweed cultivation;
- Public consultation with the beneficiary community and the local authority;
- Wait for the cultivation trial request to be validated.

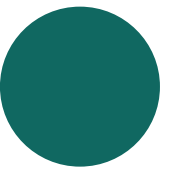

### ► Next step

- Cultivation trials;
- Study of the processing of these algae;
- Analysis of energy values and microbiological analysis;
- Production trials.

**Partnership :**

**THANK YOU VERY MUCH**  
FOR YOUR KIND ATTENTION

 Madagascar

*Dear young people, your voice and your actions are essential to preserve our planet in the face of climate change.*

*Every little bit counts: take action and inspire those around you.*

*Together, we can build a sustainable future for our community.*
