

**ASILI KWANZA UGANDA**

SUSTAINABLE AND SAFE ENERGY ONLY

Enabling communities in Uganda to access briquettes as a safe, affordable, and sustainable cooking energy solution.

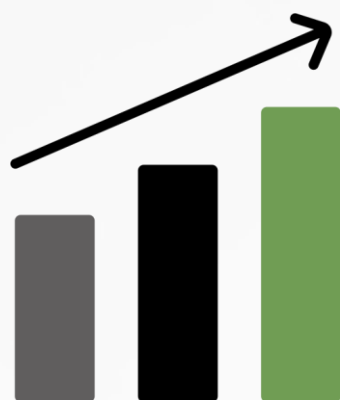

Briquettes is a sustainable cooking energy solution made by recycling organic waste.

***The funding from ACIC pushed boundaries of limitations and we are now on our way to take off stage.***

## Progress and achievements made with ACIC Prize

### **Production & Revenue.**

Production > 50%  
Revenue > 15%

### **Production site.**

Bought a plot of land for the business.

### **Partnerships.**

Formed 4 strategic partnerships.

### **Market expansion.**

Expanded our markets into 2 more divisions in Kampala.

### **Recycled Waste.**

Increased waste recycling capacity by 10%.

### **Compliance.**

Worked on more regulatory compliance requirements.

Ask: \$15000 to scale up and take off.

THANK YOU

**Energy is fundamental to sustainable development, supports all poverty reduction efforts and affects all sectors of development**
